“INSPIRING OPTIMAL LIVING, PROMOTING WELLNESS AND TREATING DISEASE. WE CHANGE LIVES ONE SMILE AND ONE NIGHT OF RESTFUL SLEEP AT A TIME.”

## SUNITA MERRIMAN, DDS

GENERAL DENTISTRY

**DR. SUNITA MERRIMAN'S PRACTICE IS BASED ON THE PHILOSOPHY OF COMPREHENSIVE CARE.**

She has been practicing dentistry for more than 20 years with the understanding that the mind, body and soul are connected. At 229 Charles Street, there is a special focus on preventive care and educating patients about their oral health and its impact on their systemic well being. Fillings, gum treatment, cosmetic procedures, Invisalign, implant restorations and treatment of worn teeth and TMJ issues are all part of the services offered.

Dr. Merriman is the founder of NJDSMC, the New Jersey Dental Sleep Medicine Center in Westfield, New Jersey, where she treats patients that suffer from obstructive sleep apnea and snoring. After successfully qualifying for and passing the written examinations, she is Board Eligible with two national dental sleep organizations ABDSM (American Board of Dental Sleep Medicine) and ABCDSM (American Board of Craniofacial Dental Sleep Medicine). She was awarded the designation of "Qualified Dentist" to provide Oral Appliance Therapy for OSA and Snoring by the AADSM (American Academy of Dental Sleep Medicine).

Dr. Merriman and her team work hard to make their practice a special place where patients feel listened to, cared for and valued. Her practice engages them "through authentic conversations that touch upon their health, life and well-being." Patients relax through the efforts of the competent, compassionate and welcoming staff, the spa-like atmosphere, warm blankets, calming music, beverage service and the commitment of putting patients' needs first.
